Hi Karyn:

Where the Subcommittee meeting is posted and the alternate doesn't vote, I don't see any issues with the alternate participating in the discussion in the absence of one of the members. However, where the alternate is not authorized to vote, the alternate is not authorized to make any motions and is not counted as part of the quorum. The absence of an alternate will not result in the lack of a quorum so long as there are 4-members of the Subcommittee present. **I would recommend that a quorum require at least 4 members with at least one member from each of the District Committees.**

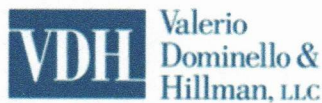

The option that I included in my earlier email - one vote per District - evens the playing field when one District may have two members present to vote, and one or both of the other Districts have only one member present and voting. However, you are correct, the one vote per District option does create the potential for two members from the same District not to be in agreement on a vote. As this is an advisory group, the calendar issues will be returning to the full Committee for a vote. So, the Districts should decide whether it would prefer to have one vote per member present or one vote per District. There are advantages and disadvantages to both options.

Please let me know if you have any additional questions or if you would prefer to discuss this. I can be reached on my cell phone today at 617-512-3397.

Thanks.

**Subject:** Re: Request for Review: Tri-District Calendar Review Subcommittee Structure

Dear Liz,

Thank you so much for your thorough response and for confirming the guidance we've received. I truly appreciate your time and support as we continue navigating this process.

To clarify, the Sudbury, Lincoln, and Lincoln-Sudbury Regional School Committees have each already voted to dissolve their original Calendar Review Subcommittees. All three districts have now joined the newly formed Tri-District Calendar Review Subcommittee and have appointed two primary representatives per district, along with one alternate.

This approach was taken in alignment with MASC's recommendation and in recognition of the condensed timeline for this work, with findings and potential recommendations expected by October 1. The intent is for alternates to attend only when one of the two primary representatives from their district is unavailable. We also understand, based on prior conversations, that if neither an alternate nor a second primary representative is available, it is acceptable for just one representative to attend on behalf of the district.

The purpose of appointing alternates is to help ensure robust and productive discussion, particularly when key topics arise. For example, the Tri-District Calendar Review Subcommittee is planning to invite faith leaders to speak about their holidays. In such cases, having two representatives from a district present, even if one is an alternate, can support broader representation, varied perspectives, and more comprehensive dialogue. The same would apply during a potential community listening session.

Given that alternates will not vote and will participate only as needed to ensure continued district representation in discussion, do you see any concerns with this structure, even if alternates are ultimately utilized?

Additionally, I wanted to follow up on your suggestion about potentially establishing a rule that each district receives only one vote in the Tri-District Subcommittee. If this approach were adopted, how would that vote be determined in cases where a district's two representatives disagree—for example, if one votes "aye" and the other "nay"? Would the vote need to be resolved in advance by the full committee, or would one member be designated as the voting representative for that meeting? I want to ensure I fully understand and can accurately communicate the process if this is something the group decides to pursue.

Thank you again for your thoughtful guidance. Please don't hesitate to reach out if further clarification would be helpful.

Warmly,  
Karyn

Good morning Karyn:

Thank you for your email.

I have reviewed the guidance from Attorney Elizabeth Carnes Flynn of the Massachusetts Division of Open Government and concur with the general guidance she provided.

As I understand the current plan, the Sudbury School Committee has joined or will be joining the new Tri-District Calendar Review Subcommittee along with the Lincoln and Lincoln Sudbury Regional School Committees. Each District Committee will appoint two members to participate in the Subcommittee. A quorum of a 6-member subcommittee is four members. However, the Subcommittee can establish a quorum requiring that at least one member be present from each of the three District Committees to meet. That would mean that if there were only 4-members of the Subcommittee in attendance one District would have two members present and the other two Districts would each have one member present.

Like other subcommittees, these new Tri-District Calendar Review Subcommittee meetings must be posted in accordance with the open meeting law requirements for posting. They should be posted in each District. For Sudbury, posting should be done by the Sudbury Town Clerk in addition to posting it on the Sudbury School Committee web page.

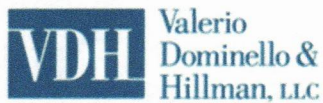

With respect to having alternates, I don't believe alternates, or non-voting members, are necessary as the Subcommittee cannot meet without at least one member from each District being present. If there is a concern about a Committee with only one member present having its vote diminished by the Districts with two members present, the Subcommittee can establish a rule that there is only one vote per school district. That way each Committee has one vote without regard to whether there is one or are two members present at the meeting.

Please let me know if you have any questions.

Thanks

Liz

**Subject:** Request for Review: Tri-District Calendar Review Subcommittee Structure

Dear Elizabeth,

I hope this message finds you well. I'm writing to share an update and request your confirmation regarding the current structure of the Tri-District Calendar Review Subcommittee and the role of alternate representatives, based on recent guidance we've received from MASC and the Division of Open Government (OML).

This past spring, Sudbury Public Schools, Lincoln Public Schools, and Lincoln-Sudbury Regional High School each voted to form their own Calendar Review Subcommittees, with the understanding that these three bodies would meet jointly to explore opportunities for calendar alignment.

After the first joint meeting, it became clear that coordinating meeting times for all six primary representatives (two from each district) was logistically difficult. In response, each subcommittee voted to reduce its quorum requirement from two members to one. However, after consulting MASC and the OML Division, it was confirmed that subcommittees cannot reduce quorum to one member under Open Meeting Law.

MASC recommended the following course of action:

- Dissolve the three separate Calendar Review Subcommittees, and
- Form a single Tri-District Calendar Review Subcommittee, composed of two representatives from each district
- Establish quorum as four members, with at least one representative from each district present
- Optionally, each district may appoint an alternate representative who may participate in discussion—but not vote—only when a primary representative is unavailable

MASC further clarified that alternates do not count toward quorum and cannot vote, but may participate in discussion to help ensure continued representation when a primary member is unavailable. Because the Tri-District Calendar Review Subcommittee functions in an advisory capacity only—gathering research and community input to inform each district's process and avoid duplicating efforts across three separate School Committees—this structure complies with the Open Meeting Law. Any proposed calendar changes must still be reviewed and approved by a vote of each district's full School Committee.

MASC also noted that had we continued with three separate subcommittees meeting jointly, alternates could not be used, since each subcommittee would retain some level of decision-making authority for its own district, potentially triggering OML concerns.

Following this guidance, each School Committee voted to dissolve its individual Calendar Review Subcommittee and formally joined the new Tri-District Calendar Review Subcommittee, comprised of two primary representatives and one alternate per district (if needed).

Attached is an email sent by Member Nicole Burnard (SPS) to the OML Division after this restructuring based on OML and MASC guidance. While general in tone, the response appears to reaffirm our current understanding:

- Quorum: A majority of the public body is required for deliberation to occur.
- Alternates: Non-voting alternates generally do not count toward quorum.
- One-Member Attendance: A subcommittee cannot deliberate with only one member present.
- Serial Communication: Rolling, non-simultaneous discussion among a quorum is not allowed.

- Subcommittee Formation: A subcommittee exists when multiple members are formally tasked to work together by a public body.

The Tri-District Calendar Review Subcommittee would appreciate your review of the above and your confirmation that our current structure complies with Open Meeting Law and related governance requirements.

Thank you, as always, for your guidance and support.

Warmly,  
Karyn

**RE: Quorum and Subcommittee Inquiry**

Good afternoon,

Thank you for contacting the Division of Open Government. Through our helpline we can provide general guidance regarding the requirements of the Open Meeting Law; we cannot provide advisory opinions or legal advice.

The Open Meeting Law requires that all deliberations of a public body occur during a properly notice meeting that is open to the public (unless a lawful executive session has been convened). The Open Meeting Law defines deliberation as "an oral or written communication through any medium, including electronic mail, between or among a quorum of a public body on any public business within its jurisdiction." G.L. c. 30A, § 18. For purposes of the Open Meeting Law, a quorum is a simple majority of the members of the body, unless otherwise provided in a general or special law, executive order or other authorizing provision. Id. We have said that, in general, non-voting alternate members do not count toward a body's quorum.

The Open Meeting Law does not speak to whether the committee may vote to allow one member of the subcommittee to attend a meeting of the subcommittee but not call the meeting to order. Rather, the Open Meeting Law requires that if a quorum of a public body, in this case a quorum of the subcommittee, will communicate regarding matters within that body's jurisdiction, it must do so at a properly posted meeting that is open to the public. Your email also appears to allude to a concern about serial communication, and so I provide the following general guidance regarding that issue. A public body may not engage in serial communication whereby a quorum communicates in a non-contemporaneous manner outside of a meeting on a subject within the public body's jurisdiction.

Finally, a subcommittee includes a "multiple-member body created to advise or make recommendations to a public body." G.L. c. 30A, § 18. Whether a public body created a subcommittee is a fact-intensive inquiry and our analysis hinges on the public body's actions and whether it intended to create a multiple-member body. For example, we have found that no subcommittee was created where a single volunteer was sought to work on a matter and another board member thereafter, on their own initiative, volunteered to assist. On the other hand, we have found that a subcommittee was created where multiple volunteers were sought to work on a matter and after two individuals volunteered, the public body, by consensus, formally agreed to the arrangement. Additionally, we have found in some cases that even if a public body did not literally intend to create a subcommittee, the body's actions clearly created a subcommittee.

I hope this information is helpful. Please feel free to reach out if you have additional questions about the Open Meeting Law.

Hello,

Recently, we formed a Tri-District Calendar Review Subcommittee. Each Committee appointed two members and an alternate. Two of the Districts have a 5 member Committee and one District has a 6 member Committee (Regional HS). MASC recommended we create one Subcommittee with two members from each Committee, they also recommended an alternate in case one member is unable to attend. Historically, if a member is unable to attend a meeting of the Subcommittee, the full Committee has voted to allow one member to attend with the understanding they're unable to call to order the meeting and no votes can be taken. MASC is stating this is not allowed and we should have an alternate however I feel this creates a quorum chain if 3 people from a 5 member Committee are potentially rotating in for a meeting. Would having an alternate create an OML violation? Can we vote to allow 1 member to attend and not call the meeting to order?

In addition, if we have a 5 member Committee and 2 members are assigned a specific task on behalf of the Committee would a subcommittee need to be created? We've previously received guidance stating a Subcommittee would need to be formed.

Hi Nicole,

Below are suggested questions for the faith leader meetings:

1. What is the historical and spiritual significance of this holiday in your faith tradition?
2. When is this holiday typically observed, and does its date vary from year to year?
3. What are the key customs, rituals, or religious practices associated with the holiday?
4. How do families and communities typically celebrate this holiday?
5. At what time(s) of day are the major observances or rituals typically held?
6. What challenges do students and families face when school is in session during this holiday?
7. What benefits do students gain—academically or emotionally—when the holiday is acknowledged or school is closed?
8. If closing school is not possible, what alternative accommodations would best support your students?
9. Are there any unintended consequences, benefits, or broader considerations we should be aware of when evaluating this holiday for school calendar changes?

Have a great night!

Hi Nicole,

Thanks for your continued leadership. Below are some initial questions as well as some additional thoughts!!

Thanks,

Lucy

Questions for faith leaders/representatives of cultural traditions:

1. What faith/cultural tradition do you represent and what denomination? What is your role/title? Where is your church/temple/synagogue/mosque/other based?
2. What major religious/cultural observances from your faith/cultural tradition fall during the school year?
3. What does/do these/this celebrate/commemorate/honor?
4. How/when is the day(or days) of observance determined?
4. For each: Does X include a widely observed ceremony/service led or presided over by a faith leader? When does this typically take place? ie. the night before, the morning of, etc...
5. For each: Does X include widely observed community/family based gatherings/rituals/observances? When does/do this/these typically occur? ie. night before, during the day, the night of etc...
6. For each: Does X include observational practices that may impact students during the school day or during after/before school activities (ie. athletics, theater, orchestra, etc..).

Questions re district calendars:

What are contractual obligations regarding PD, start/end, etc.. ?

How many snow days are typically included in the calendar?

Are faculty expected to teach remotely during snow days?

Other thoughts:

1. How can we include METCO in our fact finding and deliberative process? Should there be a METCO parent rep on this committee?
2. What process have other districts used to review their calendars? I know some committee members have done this work but can it be shared in a single document -- perhaps anonymized since some information may be sensitive? Have other districts developed criteria for making decisions about which/if any holidays to include on the school calendar? Can we learn from their experience and can we develop some guidelines or frameworks to guide each district going forward (ie. beyond the specifics of particular holidays)? (Maybe this information is in one of the packets you shared? I thought I had been through everything, but maybe I missed this??)

Hi Nicole,

Thanks for compiling questions. Here are mine.

Faith leader questions:

1. Can you describe how members of your community observe these days?
2. When school is in session during one of these holidays, how do you perceive the emotional, communal, and academic effects on members of your community?
3. Do members of the community ever express concern about having to choose between observance and participation in school?
4. In your view, what would it mean both practically and symbolically to your community if key days of observance were acknowledged in some way in the school calendar?
5. Are there other actions that you believe would help members of your community feel seen and respected concerning these days of observance?

Administration questions:

1. If additional holidays were added to the calendar, would any of the existing union contracts require a memorandum of agreement?
2. If additional holidays were added to the calendar, would any additional costs be incurred? For instance, assuming the wider community utilizes the school facilities in some fashion that day, would additional custodial hours be necessary?

See you on the 9th!

Jake

Nicole Burnard

**Faith Leader Questions:**

1. When is your religious / cultural holiday observed? Does observance start at sundown, in the afternoon or available to observe at any time of the day?
2. Does the day of your observance vary from year to year? How accurate is forecasting the date for future observances?
3. Please describe the significance of the religious / cultural holiday

**Calendar Alignment Questions for Administration:**

1. Is there specific language written in the contracts of LS, Lincoln or Sudbury with regard to PD days, half days, or start and end dates?
2. Many Lincoln students attend Bedford HS, what specifics are reviewed within the Lincoln calendar when determining alignment with Bedford?
3. If additional holidays were added, what steps would need to be made to accommodate after school care for Lincoln and Sudbury? How much notice would be required to after school care providers? Would it increase the cost to families and are they able to offer care on the proposed additional days off?
4. Are there any other potential cost increases? (ie bussing contract, substitute staff etc)

Hi Nicole,

Hope you had a wonderful 4th! Sorry for the late reply, the time got away from me.

Faith leader questions:

1. What is the cultural and/or religious significance of the relevant holiday(s) for your community?
2. When do religious observances take place? What do they entail?
3. How does the community, including more secular families, celebrate or observe the relevant holiday(s) otherwise?
4. To what extent do children and families refrain from regular activities like work or school on this day?
5. Are there flexibility or accommodations that might help observant students attend school if we do not close schools entirely?

Questions for our district admins about calendar:

1. How does each district determine the number of professional development days offered to their staff and their scheduling?
2. Do our collective bargaining agreements impose constraints on school committee choices regarding the calendar? Specifically, do they affect our ability to add/remove no school days, add/remove half days, pick start/end dates for the school year, and/or change dates for professional development days?
3. Are there other district contracts that impose constraints on our choices regarding the calendar?
3. Using the teacher survey data, is it possible to very roughly estimate the cost to our districts for substitutes if we removed the Jewish high holidays or Good Friday as no school days on the calendar?
4. When did our districts add the Jewish High Holidays and Good Friday to our calendars? Is there anyone with institutional memory in our districts about how the districts adapted to make that work?
5. Do we have a rough sense of the added cost to SPS and LS to run buses in one district and not the other on a given day?

Thanks,

Hi Nicole,

Hope you had a great 4th! Thanks so much for compiling these questions!

1. Historical Snow Days

Over the past ten years, what has been the average number of snow days used by SPS?

2. Impact on Special Education Services

In the event of a school-wide holiday or day off, how are specialized services for students receiving special education (such as one-on-one support) impacted compared to when a student is absent due to observing a religious or cultural holiday (e.g., Diwali, Eid)? Specifically, would services typically be rescheduled in either case?

3. Substitute Coverage Concerns

Based on the results of the recent staff survey, are there concerns related to securing an adequate number of substitute teachers—particularly on days such as Good Friday—should the district transition to a calendar that aligns only with state and federal holidays?

4. Attendance Requirements

Is there a minimum student attendance rate required for a school day to count toward the state's annual instructional day requirement? If so, what is the threshold for student absenteeism that could risk the day not being counted?
